

Shekhawati Engineering College, Jhunjhunu

India, being the second most populous country in the world has immense human resource which if utilised wisely, can do wonders. India's 70% population resides in villages and majority of them continue to live in rural and semi-urban areas. On one side, India is rated as the most progressive economic power which has the world's best professional colleges, technical institutions & universities and best professional manpower, while on the other hand, rendering basic education to children in rural setup, still leaves much to be answered. It is evident that these children do possess potential and if an opportunity is made available to them with a well sought objective, then, the foundation of a s....[Know More](#)
